

# Vulnhub VM LIST:

Curated by the NetSec Focus Admins - netsecfocus.com

Join us on the #“VulnHub & CTF” channel on Mattermost and find people to complete these with!

Disclaimer: The boxes that are contained in this list should be used as a way to get started, to build your practical skills, or brush up on any weak points that you may have in your pentesting methodology. This list is not a substitute to the actual lab environment that is in the PWK/OSCP course. When you are taking the course, it is encouraged that you try to go through every system that is in the PWK/OSCP lab environment, as they will provide better insight for when you attempt to the exam itself. This list is not exhaustive, nor does it guarantee a passing grade for the OSCP Exam.

**DO NOT REQUEST EDIT ACCESS. Save a copy instead. Do not forget to check the other tabs in this list below!**

List of PWK/OSCP boxes from the previous versions of the course	Current Systems that are Similiar to the current PWK/OSCP course	Other Vm's to check out!
Kioptrix: Level 1 (#1): <a href="https://www.vulnhub.com/entry/kioptrix-level-1-1,22/">https://www.vulnhub.com/entry/kioptrix-level-1-1,22/</a>	DC 9: <a href="https://www.vulnhub.com/entry/dc-9,412/">https://www.vulnhub.com/entry/dc-9,412/</a>	IMF: <a href="https://www.vulnhub.com/entry/imf-1,162/">https://www.vulnhub.com/entry/imf-1,162/</a>
